

September 2019

Dear Parent/Carer

Re: Year 10 Combined and Triple GCSE Science

We are now selling revision guides and workbooks to support both combined and triple science students. The school has purchased the books in bulk to reduce the costs for students and they are available to purchase at the cabin, via our biometric system. We strongly recommend the purchase of these books, particularly the workbook which consists of many exam style questions and will form part of the homework that students will do during their GCSE course.

Combined science

Students studying for this qualification should buy the CGP revision guide and workbook.

Prices:

- | | |
|-----------------------------------|---------------|
| • Science combined revision guide | £5.60 |
| • Science combined work book | £5.60 |
| | Total: £11.20 |

Triple science

Students studying for this qualification should buy the following CGP revision guides and workbooks.

Prices:

- | | |
|---|---------------|
| • Biology/Chemistry/Physics revision guides (at £2.85 each) | £8.55 |
| • Biology/Chemistry/Physics workbooks (at £2.85 each) | £8.55 |
| | Total: £17.10 |

Once again, many thanks for your continued support.

Yours sincerely

Miss Clarke
