

April 2021

Dear Parent/Carer

Re: Year 9 combined and triple GCSE science - revision guides and workbooks

We are now selling science revision guides and workbooks to support both combined and triple science students. Students now know whether they are studying combined or triple science. The school has purchased the books in bulk from CGP to reduce costs for students, and they are available for purchase via the ParentPay system, as detailed below:

Combined science

Students in sets 3,4, and 5 will study for this qualification and should buy the following revision guide and workbook:

	<u>Prices</u>
• combined science - revision guide	£5.60
• combined science - workbook	£5.60
	Total: £11.20

Triple science

Students in sets 1 and 2 will study for this qualification and should buy the following revision guides and workbooks:

	<u>Prices</u>
• biology, chemistry and physics - revision guides (£2.85 each)	£8.55
• biology, chemistry and physics - workbooks (£2.85 each)	£8.55
	Total: £17.10

We strongly recommend the purchase of these books, particularly the workbook, which consists of many exam style questions and will form part of the homework that students will do during their GCSE course.

Please try to purchase the books as soon as possible, by **Friday 30 April 2021** at the latest. We will distribute the books, during lessons, as soon as possible after payment. However, there may be a slight delay between your payment and the availability of the books, whilst the payment details are updated on our system. Please note, if your child is entitled to opportunity funding, they will automatically receive the appropriate work books and revision guides.

Many thanks for your continued support.

Yours sincerely

Miss Clarke
Curriculum Team Leader Science
