Parking on School Site

If you drop your child off on the school site, please ensure this is done safely and taking into consideration anyone on foot or other users of the car park. For those who are parking on site to come into school, please ensure you are parked in a marked car parking space and not blocking any other cars in. If you accidently hit another car please report this to Reception. CCTV is in operation at all times in the car park.

Winter Nights—Safety for students

Now the nights are drawing in, it is very important students are safe when they are travelling to and from school.

- For those using a bicycle, please ensure the students are wearing something reflective so they are visible on the road to drivers. This could be on their school bag, bike or helmet. All bicycles should legally have both lights and reflectors fitted when riding them in the dark.
- For those walking to school, please ensure they are not distracted when using their mobile phone. The worst times are when they are crossing the road or crossing driveways. Ear buds are far safer than other types of headphones and wearing one in one ear only will make them far safer.
- Ensure if they cycle or walk to school they are using well lit routes and are not taking dark shortcuts.
