

4 January 2023

Dear Parents/Carers

## Re: Year 9 Options Process

We are approaching the point in Year 9 where students consider their subject options for Key Stage 4, and at this stage I wanted to write to you to give an overview of how the process will run.

THE CHURCH OF ENGLAND

To help you understand the options process fully and the courses on offer, we will be releasing our options booklet online to families in the next few weeks. This booklet contains key information about each qualification alongside important advice about how to choose your options including careers information. To support the options, we will also be releasing a series of introductory videos from our subject leaders to talk you through this information.

2021-24

We are then aiming to hold our Options Information Evening on **Thursday 2 February 2023 from 6:00pm**. This will be a live online event and will feature presentations from a range of different staff about the options process and careers guidance followed by a question-and-answer session. You will receive further information in the coming weeks with specific joining instructions for the online event, but please do save the date if you possibly can.

Leicestershire

Following the Options Information Evening, we have scheduled the Year 9 Consultation Evening for **Thursday 16 February 2023**, which will allow families to speak to subject teachers about the options and help finalise choices. You will receive more information about consultation evening in the near future.

PLEDGE WELLBEING AT WORK

If you have any questions in advance of the release of our options booklet, please do not hesitate to contact me at college.
