

Google Classroom Live Lessons for Year 10 students on 1st March

Live lessons can be accessed by visiting https://classroom.google.com/ and signing in with your school email and password	
From here you should have a list of all classes you are enrolled in. If any of your classes are missing please contact IT Support on itsupport@brockington.embracemat.org	
Live lessons will be delivered in line with your school timetable (also available on Show My Homework)	
To access the lesson please find the appropriate classroom at the normal timetabled lesson time and select Join from the menu on the left-hand side of the screen.	
Please ensure that your webcam and microphone are turned off – indicated by the icons on the right – and then click Join Now	
You will then be either entered directly into the live lesson, or into a waiting area if the teacher has not joined the classroom.	
If the lesson has not started within 10 minutes of the scheduled lesson start-time then please assume that the teacher is unavailable and use the time to complete homework	

Please ensure the platform is used responsibly at all times including:

- Ensuring cameras remain off at all times.
- Chat windows are enabled for students to ask questions relating to the topic being taught. Please do not disrupt learning by using it for any other reason.
- If it is found that you are disrupting learning using this platform, access to the service may be revoked and may be subject to the school behaviour policy

If you have any difficulties accessing the lessons we first recommend trying in an Incognito / Private Browsing window (particularly useful if on a shared computer). If this does not resolve the issue please contact IT Support on itsupport@brockington.embracemat.org
