

Brockington College

Online Learning Programme

To support students remotely during the ongoing industrial action, the following programme of online learning has been put together to ensure that students are able to access education remotely and independently. The timetable below outlines the subject, topic and link to the online resources needed for the lesson. Timings of the day have been set to the school timetable to help keep students in a normal routine.

All subjects will use Oak Academy lessons, which consist of video-based lessons supported by quizzes to consolidate learning and require no specific login details. Maths lessons have been set by topic, so students should begin with Lesson 1 of the unit and work through the resources.

English lessons are skills-based and students do not need to complete the recap quiz at the beginning of the lesson.

<u>Yeargroup</u>	<u>Period 1</u> (9:05-10:05)		<u>Period 2</u> (10:25-11:25)	<u>Period 3</u> (11:25-12:25)		<u>Period 4</u> (13:00-14:00)	<u>Period 5</u> (14:00-15:00)
Year 7	<u>English</u> Topic: Pronouns	<u>BREAK</u>	<u>Maths</u> Topic: Manipulating and calculating with fractions	<u>Science</u> Topic: Elements	<u>LUNCH</u>	<u>RS</u> Topic: The Nature of God	<u>PSHCE</u> Topic: Why do some people reject climate change?
